

Vernon County Recycling Guide 608-634-2900

Please separate materials as indicated on this page. Recyclables that are not properly prepared or separated will be refused at the Vernon County collection sites. Each material collected for recycling has a very specific market that requires quality control to make it marketable.

If caps are left on glass or plastic bottles or if some low grade mixed paper or magazines are included in a bundle of newspaper these materials become garbage because we cannot sell it.

Vernon County remains totally committed to Recycling and you have our unconditional guarantee that when you place properly prepared and sorted materials into our Recycling Collection System they will not be land filled. Recycling benefits everyone! Your individual efforts will carry us long term without the need of county tax dollars.

Please do not send unacceptable materials for recycling. Prepare as indicated.

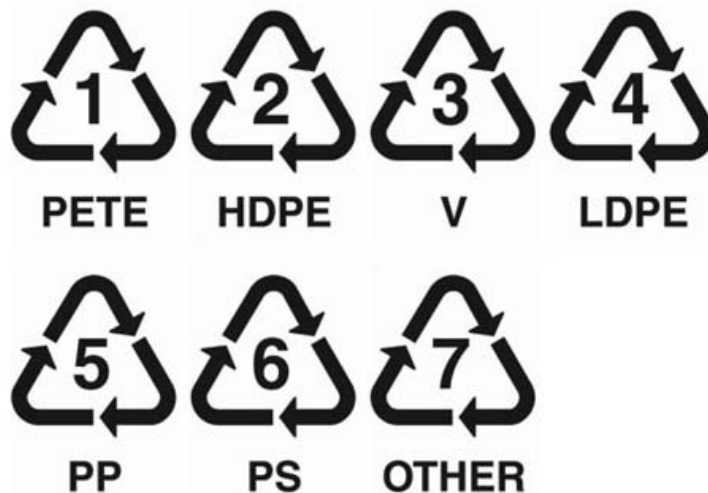

TIN CANS

Rinse, remove labels, and flatten

PLASTICS - Containers ONLY

Rinse, remove caps, no bags

Vernon County is now accepting all household container plastics!

Herbicide and Pesticide containers must be triple rinsed, and dry.

NEWSPAPER

Bundle and tie with a heavy string. Do not place in brown paper bags.

CORRUGATED CARDBOARD ONLY

Clean and flatten.

MAGAZINES

Bundle and tie with a heavy string. Do not place in brown paper bags.

LOW GRADE MIXED PAPER

Office paper, Junk mail, boxboard (cereal boxes), brown bags, place mixed paper in brown paper grocery bags, (no plastic bags), fold down top and tie with string. No wax paper or plastic wraps, no dog or cat food, feed or fertilizer bags. No tissue paper or paper towels.

These items may be delivered to the Vernon County Recycling Center Monday - Friday 8:00 - 4:00 and on the 1st and 3rd Saturdays from 9:00 - 11:00.
