TYPE and SPECIES	SIZE/AGE		USES					NOTES				
 <p>Our selection of trees and shrubs provides choices for wildlife habitat, shoreland restoration, landscaping, windbreaks, and reforestation.</p>	S = Seedling T = Transplant P = Container (e.g: S2-T2 means two years as a seedling and two years as a transplant.)		WILDLIFE			PRODUCTS		SOIL, MOISTURE REQUIREMENTS	LIGHT REQUIREMENTS	TYPICAL MATURE HEIGHT	Plants that are attractive to native pollinators are indicated under the wildlife notes. Because honeybees are declining, native bees and other native pollinators are more important than ever to agriculture and the environment.	
			FOOD	COVER	WILDLIFE NOTE	LUMBER-L PULP-P FIREWOOD-F	OTHER HUMAN USES
